POSTAL BANKS IN OPERATION

New System Put Into Practice in Smaller Cities in Various States.

OFFICIALS THINK PLAN WILL MEET WITH FAVOR

Expected to Be Especially Beneficial to School Children With Thrifty Bent.

WASHINGTON, Jan. 3 .- The bank guarantee laws of Oklahoma, Nebraska and Kansas were declared con stitutional today by the supreme court of the United States, and thus the fight over the policy of guaran-teeing, through the state, deposits in banks was won by the advocates of such a policy. Opinions of the court were announced by Justice Holmes. He said the main objections to the laws was that the assessment of banks by the state, in order to create a fund to guarantee deposits in other banks, took private property of one bank for the private use of another without

Justice Holmes admitted that there might be a taking of private property without return to pay debts of failing rival business, but he said there were more powerful considera-tions on the other side of the question.

"In the first place," he said, "it is established by cases that an ulterior

public advantage may justify a com-paratively insignificant taking of pri-vate property for what, in its immethat it is compelled to assume. At least, if we have a case within the reasonable exercise of police power, above explained, no more need be

limit, he said.

IN NEW ENGLAND

One City in Every State in Group Sees System Inaugurated. BOSTON, Jan. 3.—Postal savings banks were opened in one town in

every New England state today, and while the volume of business transacted the local postal officials.

Norwood, Mass.; Bristol, R. I.; Berlin, N. H.; Rumford, Me.; Montpelier,

Vt., and Ansonia, Conn., were the towns chosen for the experiment in New Eng-At Norwood up to noon about wenty-five accounts, averaging \$2 each had been opened. The largest amount business in Norwood is expected to

be done evenings.
At Bristol the postal clerks were kept busy. The largest single deposit was \$50. Several school children bought postal deposit stamps at 10 cents each, for ten of which an account for \$1 may

Although but few residents of Berlin knew of the opening of the postal bank there, more than twenty accounts had been opened up to 4 o'clock. At Rumford, a number of deposit accounts were opened and a large quantity of deposit stamps were sold to the school

At Montpelier, Vt., there were only a few depositors during the day, but the postmaster expressed the belief that as soon as the people became familiar with the operations of the postal bank, they would give it good patronage,

BOY FIRST DEPOSITOR

Bank at Peoria, Ill., Looked Upon as Beneficial Innovation.

Beneficial Innovation.

PEORIA, Ill., Jam. 3.—With the exception of a scramble to have the honor of being the first depositor in the postal savings bank for the state of Illinois, which opened at 8 o'clock this morning at Pekin, there was no ceremony. Mayor Counselman had urged the people in the vicinity to show their appreciation of the institution by giving it liberal patronage and there were several hundred waiting at the doors before the office was opened. The first depositor was a little boy II years old, Paul Ponaghan, who left \$2 in quarters, dimes, nickels and pennies. The first adult was Able Schaffer, a newspaper man, who trusted Uncle Sam with \$5. The tentative move has proved to be a happy innovation to the hundreds of foreign laboring men in the vicinity of Pekin and Peoria, who are inclined to be dubious as to the stability of national and state banks of this country.

There are mapy regulations relating to the new institution which differ from the ordinary banking rules. Certificates in denominations of \$1, \$2, \$5, \$2, \$6, and \$50.

the ordinary banking rules. Certificates in denominations of \$1, \$2, \$5, \$20 and \$50 in denominations of \$1, \$2, \$5, \$20 and \$50 are issued. No person is allowed to exceed a balance of \$500. A married woman may open an account without hindrance on the part of the husband. A depositor is asked his or her age, occupation place and date of birth and name of father or mother. This is done because the government anticipates that a great number of children will be patrons of the bank. Withdrawal may be made at any time on presentation of the certificate. A depositor will be allowed to convert his funds into postal savings bonds by giving fifteen days' notice prior to January 15 or July 15.

SYSTEM WORKS WELL

Expected That Money Orders Will be Deposited.

Deposited.

LEADVII.LE. Colo., Jan. 3.—The postall savings bank system was successfully
inaugurated here today, and at the close
of business, fifty neople, including a
number of school children, had taken advantage of the opportunity to make deposits in Uncle Sam's bank.

Fifteen persons called at the postoffice
before 10 o'clock with rolls of money
amounting in several cases to \$500, and
desired to make deposits. It is expected
that certificates for large denominations
will arrive within a few days.

The postoffice at present hylds \$65,000
in money orders, which people have
bought merely for the purpose of having
the government take care of it. This
probably will all be deposited in the
postal bank.

Steady Business at Olympia. OLYMPIA, Wash., Jan. 3.—The first postal savings bank in the state of

Washington was opened in the Olympia postoffice today. Eight men presented themselves within as many minutes to make deposits, each putting in \$1. They were eager to be among the first depositors, and were only "trying out" the bank. Within an hour thirty-three persons had made deposits, including one woman. Some of them evidently intended to make their accounts permanent, and placed considerable sums. There was a steady run of business all day.

TO RECALL MONEY ORDERS

Arizona Postmaster Desires to Get Money Into Bank.

Money Into Bank.

GLOBE, Ariz., Jan. 3.—The first postal savings bank in Arizona opened for husiness today. A number of newsboys were at the head of the line of waiting depositors and opened accounts with Uncie Sam for amounts ranging from 10 cents up. The depositors were numerous, but owing to the fact that no certificates of a larger denomination than \$5 had arrived, a number who wished to place larger amounts had to be turned away.

There is outstanding from the Globe postoffice \$18,000 in money orders, most of them in the hands of foreigners who are afraid to trust banks. Postmaster Burnett will ask for permission to advertise among the foreigners of this district, acquainting them with the new banking system. banking system.

Opened in Montana.

ANACONDA, Mont. Jan. 3.—The first postal savings bank in Montana opened in Anaconda today, Miss Fern McCor-mick, daughter of Postmaster Harper, was the first depositor.

SAYS HIGHER WAGES JUSTIFY ADVANCE

Pennsylvania Gives Increase in Pay as Reason for Demanding Higher Tariffs.

WASHINGTON, Jan. 3.—Wage advances aggregating \$7,095,047 annually and the asserted necessity for increased income in order to meet the public dediate purpose, is a private use. It would seem that there may be other cases besides the every-day one of taxation, in which the share of each party in the benefit of a scheme of matual protection is insufficient compensation for the co-relative burden that it is compelled to assume. At sion by counsel for the roads. mand for improved operating facili-ties, are the principal arguments of the At sion by counsel for the roads, the The brief shows that since January

1, 1910, the scale of wages paid by the Pennsylvania lines cast of Pittsburg has been advanced about 8.15 per cent, The justice then proceeded to justify the laws under the police powers. The police powers, he said, may be put forth in aid of "what is roads 1.62 per cent of the gross freight sauctioned by usage, or held by the prevailing morality or strong and prepared on the wage scale constitutes a permanent advance in the operating welfare. The laws came within this that it furnishes on its face "a justifi-cation for an advance in rates."

It is argued by the attorneys that unless it be admitted that the present rates are excessive by at least \$7,000, 000 a year-the additional amount in round figures paid in wages-the proposed advances in rates must be regarded as reasonable. It is maintained that the present rates are too low. It furthermore is argued that the rates, enwas not large, it is reported to have tirely irrespective of the advances in more than fulfilled the expectations of wages, should, in justice, be allowed.

Noted Engineer Dead.

Noted Engineer Dead.

DENVER, Colo., Jan. 3.—Colonel Leonard H. Eicholtz, a pioneer of Colorado, died at his home in this city today, aged \$4 years. Colonel Eicholtz, years ago, was superintendent of construction and chief engineer of the Denver & Pactific railroad, running from Cheyenne to Denver, and one of the incorporators of the Denver & South Park railway, now part of the Union Pacific, and was chief engineer of that road, which, under his direction, was built from Denver to the Arkansas river and thence to Gunnison.

Railroad Notes.

R. E. Wells, general manager of the Sait Lake Route, is expected to arrive in this city this morning, on route from the east to Los Angeles. H. Manderfield, assistant genera

freight and passenger agent for the Salt Lake Route, will leave this afternoon for a business trip to Los Angeles. The passenger department of the Ore-gon Short Line has issued a special fold-er on the Farmers' special which will leave this city January 9.

Injured in Trolley Wreck.

Injured in Trolley Wreck.

NEW YORK Jan. 3.—Sixteen persons were injured, two fatally, in a collision between two Brooklyn trolley cars early today. One of the cars ran away on a long incline leading from an elevated line to the surface tracks and crashed into the other in the dense fog. Nearly every passenger on both cars was injured to some extent and ambulances from four hospitals were summoned to care for them. The motorman told the police that his brakes refused to work, presumably on account of the rails, which were slippery from sleet and fog.

Million Dollar Loss by Fire,

Million Dollar Loss by Fire,
LITTLE ROCK, Ark. Jan. 3.—Fire
originating in the Hollenberg Musical
company's building destroyed an entire
block of business houses here this morning. The loss is estimated at \$1,000,000,
The business houses desiroyed are the
Hollenberg Musical company, Jones Furnishing company, Jackson-Hanley Furniture company, E. D. Bracey Hardware
company, Akin & Martin, clothiers, Lloyd
& Co., J. H. Martin Arms company and
the Arkansas Water company.

COREY RESIGNS AS PRESIDENT

Head of United States Steel Corporation Sends Notice of Retirement.

DIRECTORS MAY DECIDE TO NAME NO SUCCESSOR

Possible That Chairman Gary Will Take Over Manifold Duties.

NEW YORK, Jan. 3.-William E corey, president of the United States steel corporation, resigned today, and it is probable he will have no successor. His resignation was announced late this afternoon by Elbert H. Gary, chairman of the corporation, to take effect at the pleasure of the directors. He carries with him the best wishes of all connected with the corporation, says the state-

ed with the corporation, says the state-ment issued, and leaves with feelings of loyalty to the corporation and all its interests, but nothing is said of his plans for the future.

The first president of the United States Steel corporation was Charles M. Schwab, who following his resignation, became president of the Bethlehem Steel company. Mr. Corey has served seven yests. Former Judge Gary's statement says, in part:

Seven Years' Service.

"After more than seven years of faithful service as president of the United States Steel corporation, William E. Corey has tendered his resignation, to take effect at the pleasure of the board of directors. The resignation will be presented to the board for consideration and action in due time, and the finance committee will then present its recommendations concerning the subject matter.

mendations concerning the subject matter.

"It is the present opinion of the members of the committee that there should not be elected a successor in the immediate future, if at all.

"The experience and talents of Mr. Corey have best fitted him to take charge of the commercial and manufacturing departments, and his attention has been largely confined to that service. However, as the manufacturing companies are thoroughly equipped with the very best talent, including such as the abovementioned branches need, the strength of the organization will not be diminished. The finance committee may recommend the election of a vice president or two vice presidents, who will be expected to take especial charge of different deguritments. It is intended to strengthen the whole organization in every respect practicable and useful.

Relations Are Pleasant. Relations Are Pleasant.

Relations Are Pleasant.

"The relations between Mr. Corey and the members of the board and finance committee, respectively, as well as all the officers of the United States Steel corporation and subsidiary companies, have been most pleasant and agreeable. Mr. Corey severs his connection with a feeling of loyalty to and friendship for the corporation and all its interests, and takes with him the best wishes of all who are connected with the companies interested referred to."

Something like a year ago the powers of the chairman of the board of directors, both of which Mr. Gary is, were enlarged to include not only the administrative affairs of the corporation, but the details of executive management. Unless another president is named, therefore, or another chairman succeeds Mr. Gary, he becomes chief in authority over all provinces of the largest corporation in the world.

So far as could be learned, Mr. Corey was not in town tonight, and no statement from him could be had. It was said that he left town over the holidays and had not returned.

MULTIPLEX TELEPHONY IS PAST EXPERIMENT STAGE

WASHINGTON, Jan. 3.—General Allen, chief signal officer of the army, today announced that as a result of recent experiments by the signal corps, multiplex telephony is now practicable, whereby several independent conversations may be carried on simultaneously over the same wire circuit.

Another important discovery, calculated to double the capacity of existing telephone lines, is that it is no longer necessary to use two wires, or what is now known as the "return wire," for efficient telephony, but that a single wire with "silent earth" connections can be used for multiplex telephony.

That the new system is practicable, and that it has long passed the experimental stage, is evidenced by the fact that a single-wire circuit between the research laboratory of the signal corps at the bureau of standards, on the heights north of Washington, and the signal corps construction laboratory is now being used for the independent transmission of two simultaneous telephonic conversations.

LEXINGTON, Ky., Jan 3.—"Bad Jake" Noble of Breathitt county, who is wanted for the killing of Jalier Wesley Turner at Jackson, Ky., on election night, is under arrest at Williamson, W. Va. There was a large reward for his capture. capture.

IN THE DISTRICT COURT OF THE United States for the district of Ulah—In the matter of Thomas S. Higham, bankrupt—No. 1496; in bankruptey. Petition for discharge.

To the Honorable John A. Marshall, judge of the district court of the United States for the district of Utah. In Thomas S. Higham of Salt Lake City, in the county of Salt Lake and state of Utah. In said district, respectfully represents that on the 5th day of November last past, he was duly adjudged bankrupt under the acts of congress relating to bankruptey, that he has duly surrendered all his property and rights of property, and has fully compiled with all the requirements of said acts and of the orders of the court touching his bankruptey. Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankrupt acts, except such debts as are excepted by law from such discharge.

Dated this 31st day of December, A. D. 1910. THOS S. HIGMAM, Bankrupt.
